[REDACTED]

Mr. Johnson indicated that he is most interested in pursuing CIA's relationship with academia and that he was ready to attend briefings on this subject as soon as I could set them up. He told me that the Committee would be holding hearings on CIA's relationship with academia in September and that the briefings for him would be by way of preparation for the hearings.

16. [REDACTED] LIAISON Saw Diane LaVoy, House Permanent Select Committee on Intelligence staff, who told me that the Committee expects to have its paper on Intelligence Community warning procedures completed within the next week or two. Once completed that paper will be circulated to Intelligence Community members for comments. She said that subsequently, in September, the Committee would hold hearings on the general subject of Intelligence Community warning procedures.

Ms. LaVoy said that she is planning to take a trip to Europe under the auspices of the Air Force and the trip would take place roughly between 5 and 20 August. She will be in Germany, Spain and England. [REDACTED]
